## 1. Academic History

Name: Jason B. Peake  
Title: Director of Academic Programs - UGA Tifton  
Rank: Professor  
Status: Tenured

### a. Academic Degrees

**Doctorate of Philosophy**, Texas A&M University, College Station, Texas - December 2003  
Specialization: Agricultural Education  
**Masters of Arts**, University of Central Florida, Orlando, Florida - August 2000  
Specialization: Instructional Technology and Educational Technology  
**Bachelor of Science**, University of Kentucky, Lexington, Kentucky - December 1996  
Major: Agricultural Education

### b. Academic Positions

**Professor:** Agricultural Leadership, Education and Communication, University of Georgia, Tifton, Georgia. 2014 - 2017. Transfer to UGA Athens Campus 2017 - present  
**Director of Academic Programs - Tifton Campus:** Agricultural Leadership, Education and Communication, The University of Georgia, Tifton, Georgia. 2014 - present.  
**Director of Distance Education** College of Agricultural and Environmental Sciences, The University of Georgia, Tifton, Georgia. 2013 - 2014.  
**Associate Professor:** Agricultural Leadership, Education and Communication, The University of Georgia, Tifton, Georgia. 2009 - 2014.  
**Assistant Professor:** Agricultural Leadership, Education and Communication, The University of Georgia, Tifton, Georgia. 2004 - 2009.  
**Graduate Assistant and Program Instructor:** Center for Distance Learning Research, Bryan, Texas. 2002 - 2003.  
**Graduate Assistant:** Texas A&M University, College Station, Texas. 2001 - 2002.  
**Technology Facilitator and Instructor:** Grisham Middle School, Austin, Texas. Summer 2001.  
**Adjunct Professor:** Polk County Community College, Lakeland, Florida. Summer 2000.  
**Agriculture Instructor:** McLaughlin Middle School, Lake Wales, Florida. 1998 - 2000  
**Summer Citrus Academy Lead Instructor:** McLaughlin Middle School, Lake Wales, Florida. 1999 - 2000.  
**Agriculture Instructor:** McKeel Academy of Applied Technology, Lakeland, Florida. 1996 - 1998.

## 2. Instruction

### a. Courses Taught

**14 Undergraduate Courses:** Selected undergraduate courses include: Curriculum Planning, Instructional Strategies, Student Organizations, Supervising Teaching, Ambassador Program and Leadership Development.

**11 Graduate Courses:** Selected graduate courses include: Research Methods, Global Issues in Agriculture, and Graduate Research.

### b. Summary of Student Evaluations of Teaching, Mean Scores 2004 – 2016

	Undergraduate	Graduate
The instructor increased your interest in the subject.	4.9	4.7
The instructor was knowledgeable of the subject being taught.	5.0	4.6
The instructor was enthusiastic about the subject.	4.9	4.6
The instructor was willing to give individual assistance outside of class.	4.9	4.7
The instructor encouraged students to think for themselves.	4.8	4.5
The instructor was clear about the basic principles, presented them in a logical manner and tried to explain materials that were confusing to students.	5.0	4.6
The instructor was receptive to questions and/or discussion during class.	4.9	4.7
The instructor recognized student difficulties in understanding new material.	4.9	4.4
The instructor kept the course moving at a steady pace.	4.7	4.8
The evaluation was based on materials covered.	5.0	4.9
The instructor was prompt in returning graded materials.	4.5	4.4
The instructor clearly described the grading procedures.	4.8	4.8
Compared with other instructors you have had at this University, how would you rate the teaching ability of this instructor?	4.9	4.8
Compared with other courses you have had at the University, how would you rate this course?	4.9	4.8

### c. Selected Student Comments

1. “Dr. Peake has a lot of enthusiasm for what he is teaching, even when the topic is boring he gets excited about it. “
2. “Glad that some of these topics were covered as they relate to what we are doing at work, it makes the material worth listening to, immediately applicable, and extremely useful.”
3. “There was a lot of complaining about the research articles we had to write, but I am glad you stuck to your guns and made us do it. I was one of the students who complained, but I finally feel like I understand research and can actually do it.”
4. “Dr. Peake is very approachable and available to the students, a great teacher.”
5. “Very organized and that makes life easier for all of us. I especially like how much he uses rubrics, they make the assignments much easier to understand and complete.”
6. “Thanks for taking us out to see so many of the different Ag programs in the area, that helped a lot to see what real teachers are doing out in the schools.”
7. “Always super prepared for class and organized with his information; it makes it a lot easier and a lot less stressful when the professor has their stuff together.”
8. “Hands down the best professor that I have had during my time at UGA.”

## 3. Student Advising

### a. Advising of Undergraduate Students:

Average of 20 students per year from 2004 to 2016 with a 98% graduation rate and 99% job placement rate for graduates.

### b. Advising of Graduate Students:

52 graduate students from 2004 to 2017. From these graduate students, 16 research papers have been presented at regional and national conferences, 12 manuscripts were published in peer-reviewed journal articles, and 8 refereed poster were published.

### c. Peer Reviewed Teaching

Dr. Joe West, Assistant Dean of the UGA Tifton Campus / Dairy Science and Dr. Brian Parr, Agricultural Education, from Auburn University evaluated my teaching effectiveness for Research Methods and Methods of Instruction respectively. Dr. West examined technologies used in conducting distance education classes and Dr. Parr examined course materials, syllabus, and teaching methods.

Dr. Joe West quotes:

“Very impressive level of student engagement for teaching at a distance... that is really amazing. This (distance education) seems to work really well when you have a mastery of the subject matter, you seem to have a good handle on this.”

“We could really use your help in getting some of the other faculty members up to speed with this kind of teaching.”

Dr. Brian Parr quotes:

“You have one of the best personalities for teaching that I have ever seen, you are a natural at this. This was a solid lesson all the way through for you, solid objectives, appropriate methods, and alternative assessment techniques used.”

“If we could get this level of student engagement in all of our classes we wouldn’t have to deal with failing students, the only option they have is to get their work done.”

#### d. Student Organization Advising

Advisor – UGA Tifton Student Government Association (2014 – present)

Advisor – UGA Tifton Horticulture Club (2012 – present)

Advisor – UGA Collegiate FFA: Average of 30 student members/year (2004 – 2014)

Advisor – UGA Alpha Tau Alpha: Average of 30 student members/year (2004 – 2014)

#### 4. Scholarly Activities

Scholarly activities are applied research in the areas of pre-secondary, secondary, and post-secondary agricultural education for the purpose of improving agricultural education practices at the middle school, high school, and college levels both nationally and internationally.

Research has focused on the needs of teachers, to better prepare undergraduate and graduate students as they grow as professional educators. Additionally, I have conducted research on student evaluation techniques, distance campus needs, distance education, and program development. In 2014 an additional research line was beginning in turf grass in order to broaden understanding of research methodologies and data processing.

##### a. Refereed Journal Articles (28):

Note: Underlined names are graduate students conducting research under my direction.

From 2004 till 2012, 8 of the 26 refereed journal publications have been published by graduate students under my advisement. All publications have gone through a stringent peer review and editorial process. Acceptance rates for aforementioned journals are as follows: Journal of Agricultural Education – 40%; Journal of Career and Technical Education – 45%; Journal of Southern Agricultural Education Research – 55%; and Journal of Agricultural and Extension Education – 50%.

**f. Refereed Conference Papers (27):**

In Agricultural Education, papers submitted for research conference proceedings and presentations go through a rigorous, double-blind review selection process. Complete papers are submitted for a blind review conducted by three members of the profession. Reviewers are selected based upon their area of scholarship and expertise. The conference research chair coordinates the review process. If a paper is accepted, the author(s) is provided with instructions for improving the final paper. Research papers presented are subjected to scrutiny and discussion by those in attendance as facilitated by a discussant. Acceptance rates at the national level range from 40% to 67%.
